

SAVIORUR Industrial Bump Cap

General Description:

Head protection is a must for every type of Manufacturing Facility. It is the basic need of any Industry or Field activity however big or small. Many a times the protection is required during the normal course of activity including work place where protection is required from accidental and unknown Bumps, small falling objects like nuts, bolts which while doing even light jobs like assemblies in Automobile workshops etc. can cause injuries.

MODEL NO: HPSAV-BC

Specifications

'Saviour' Bump caps are made from virgin Grade PP Material and has Ventilation Holes on both sides of the shell to give comfort even during extended wear. They are light in weight, compact and fashionably designed for easy acceptance by all users. They are used in places where there are chances of accidental bumps or dashing against unseen obstructions. They are provided with a chin strap made of Soft nylon Textile and Chin Cup made of LDPE material which is easy on the Chin and comfortable though it helps in keeping the light weight Bump Cap in place.
